

TOM GLEDHILL

Author Entrepreneur businessman

Tom Gledhill has founded, built and sold multiple companies during his career as a business owner. He is an M&A Advisor and the author of “Xitpro System” and “The Big Transfer”

He has combined his experience from building and selling his companies and helping many other business owners sell their companies, to develop the XITpro System to help business owners increase the value of their company, make more money, and make their business more salable. Only 20% of small businesses that go to market actually sell. Most of these business owners were counting on the sale of their company to finance their retirement.

These business owners were not even aware that there might be a problem when it comes to selling their business. And several studies have shown that the majority of their net worth is in the company.

Tom’s mission is to make these owners aware of the potential problem and to provide a simple methodology to allow the business owners to fix the problem themselves.
